

**Elias Mallis**  
**Director, Division of Small Manufacturers, International, and**  
**Consumer Assistance**  
**Office of Communication, Education, and Radiation Programs**  
**Center for Devices and Radiological Health**

Elias Mallis is the Director of the Division of Small Manufacturers, International, and Consumer Assistance in CDRH's Office of Communication, Education, and Radiation Programs. He began his career in CDRH in 1994, as an Electrical Engineer responsible for the regulation of medical devices in the fields of gastroenterology, hemodialysis, extracorporeal therapeutics, and obstetrics and gynecology. For approximately 8 years, he served as the Branch Chief of the Cardiac Electrophysiology and Monitoring Branch, where his focus included various disciplines including cardiac ablation for treatment of arrhythmias such as atrial fibrillation, and implanted hemodynamic monitors for heart failure diagnosis.
