

## **Pamela Bradley Bio**

Pamela Bradley is a member of the Personalized Medicine Staff in the Office of In Vitro Diagnostics and Radiologic Health (OIR) in the Center for Devices and Radiological Health at the U.S. Food and Drug Administration, where she is focused on scientific and policy issues related to the codevelopment of diagnostics and therapeutic products. Prior to joining the FDA, Dr. Bradley was the Director of Science Policy at the American Association for Cancer Research (AACR). Dr. Bradley previously completed the Genetics and Public Policy Fellowship, sponsored jointly by the American Society of Human Genetics and the National Human Genome Research Institute (NHGRI). As a fellow, she served in the Office of the Director at NHGRI and the U.S. Senate Committee on Health, Education, Labor, and Pensions. Dr. Bradley received her Ph.D. from Johns Hopkins School of Medicine in developmental biology and genetics, and completed postdoctoral research at Harvard Medical School and the National Institutes of Health.
