

## **Andy Quintenz bio**

Andy Quintenz is the Scientific and Professional Affairs Manager for Bio-Rad Laboratories Quality Systems Division. He works to promote an understanding of laboratory regulations and best practices, as they pertain to QC and EQA / PT programs. Andy has 20 years of medical device industry experience including implantable devices and point of care testing. He is a member of the Executive Committee for US Technical Advisory Group to TC 212 (Clinical Lab Testing and *ivd* Testing), Clinical and Laboratory Standards Institute (CLSI) Consensus Committee on Clinical Chemistry and Toxicology, and the Educational Working Group for EP23 (Laboratory QC Based on Risk Management). Andy is involved in various groups on traceability and uncertainty of measurement.
